# containers in pure cellulose pulp moulded fiber (PULP)

## > containers in pure cellulose pulp moulded fiber (PULP)

Our containers are made from 100% pure cellulose pulp.

Our moulded fiber containers are thermo-sealable and are an essential element of the COMPAC SYSTEM together with the tray sealers and the sealing film reels.

Our moulded fiber containers are manufactured using only naturally biodegradable materials coming from renewable resources.

This range is part of the Compac biodegradable *green line*

## Technical properties of our containers (🍽️)

- of High Quality, our containers have a good rigidity and compressive strength which make them safe from breakage during handling and transport;
- excellent resistance to aggressive chemical agents, to organic and inorganic substances (including oil, fat, etc...) and an excellent physiological behaviour (odourless, flavourless);
- suitable for reheating food in microwave oven up to 800 Watt for 3 minutes, and in traditional oven up to +175 °C for 30 minutes;
- suitable to pack frozen food down to a minimum temperature of -25 °C;
- our containers are able to go directly from the freezer to the oven.

VP45PU 500ml

VP45HU 1000ml

VP45MU 1750ml

Item	Series	(mm) LxBxH	ml	Pack x Pieces	L	B	H
